

# SEA-LINE BRAYT S2 EXTRA SHINE HOLOGRAM REMOVER

## Technical information

**Product components :** Polishing compound S2 – one pack product

**Volume:** Single pack: 500 g

**Product description :** Sea-Line® Brayt S2 polishing compound is a universal finishing product for all types of finishing coatings. It eliminates defects after polishing and provides a perfect mirrored shine.

**Recommended use:** It is a universal product, appropriate for every kind of gelcoat, PE and PU varnishes in the furniture industry and in the manufacturing of products made of composites.

High quality polishing minerals provide immaculate, mirrored shine without holograms, and an optimal proportion of solids and a binder enable to keep your work area clean and makes the residual product easy to remove.

Thanks to an optimal composition, the product does not cause excessive heating. By working with Sea-Line® S2 we save our time.

Cut level:  2 /10

Gloss level:  10 /10

### Physiochemical Characteristics:

Density : 1,0 kg/l  
Color: Turquoise  
Viscosity: >7 mm<sup>2</sup>/s (40°C)

**Preparing the surface:** For difficult surface, product can be treated as supplement after use of Sea-Line® S1 polishing compound.

- Wash the work surface.
- finishing sanding : P3000 < (only if it is necessary to remove scratches)
- Remove dust and degrease again.
- Wash the work surface other contaminations with fresh water.

**Method of application:** Soft sponge (black), microfiber finishing pad, lambwool (Type MM Sea-Line® BRAYT).

**Application conditions:** Product works best when its temperature is 15 – 25<sup>0</sup>C

- Application:**
- Apply Sea-Line® S2 in small quantity on the surfaces to be treated.
  - polishing should be performed on a small surface.
  - In order to remove scratches and other defects, polish with limited pressure.
  - polish with max 2000 RMP to reach perfect gloss.
  - To provide the best quality of polished surface, gradually decrease the contact force and rotations.

**Further Work :** After polishing, remove all residues with a microfiber cloth.

To protect the surface use :

- S4 Protect wax
- S5 Quick wax
